Summary

With over 6 years of frontend development experience, I excel in Angular, Vue, TypeScript and optimizing web applications. Interested in contributing to innovative software solutions with a focus on high performance as a dedicated Software Developer. I am on track to complete my undergraduate degree in the Computer Engineering department of METU by the end of this year.

Experience

Hepsiburada
Istanbul, TUR

SOFTWARE DEVELOPER
Nov. 2022 - Apr. 2025

- Led the development of a **Vue.js** powered user interface that improved performance by 30% within 2 years.
- Collaborated with backend teams using **.NET and PHP**, improving data throughput and reducing load time by 40%.
- Implemented **Angular** throughout the **Intelligent Warehouse Management System**, achieving a reduction in runtime errors and bugs.
- Designed and optimized reusable components, increasing development efficiency.
- Integrated RESTful APIs to enhance frontend functionality, resulting in a smoother user experience for **Merchants**.

Me Tech Digital
Istanbul, TUR

FRONTEND DEVELOPER
Apr. 2022 - Nov. 2022

- Led the development of multiple user interface implemented with **Angular** across different projects.
- These projects included the consumption and reporting panel for Electric Vehicles at **ZES**, a company based in **Turkey**.
- Developed an **Online Shopping Platform** supporting **B2B** and **B2C** business models for **GREYFOOD**, headquartered in **Germany**.
- Built **Runflow**, an appointment scheduling platform that simplified cleaning service bookings across the **Netherlands**.
- Worked closely with backend teams using .NET, improving throughput and reducing load time.
- Ensured cross-browser compatibility, achieving 99% seamless user experience across leading browsers.
- Successfully implemented responsive design, to ensure smooth user experience across all device sizes.
- Managed code reviews for 5 projects, improving code quality and consistency within the team.
- Participated in the design phase with **UX/UI teams**, facilitating a 30% improvement in design feasibility.

Argus Technology
Ankara Üni. Teknokent, TUR

FULL-STACK DEVELOPER
Mar. 2019 - Apr. 2022

- Contributed to a modern Content Management System (CMS) using **Angular** for the frontend and **.NET Core** for the backend.
- Enabled the creation of unlimited websites and pages, supported by dynamically configurable modules that enhance flexibility.
- Implemented **HTML5** and **CSS3** standards that reduced troubleshooting time by 50% over legacy code.
- Assisted in transitioning to a Git-based version control system, enhancing team collaboration efficiency by 30%.
- Utilized **Angular** for developing interactive UI components, reducing development time by 25%.
- Designed and implemented both **Mesh** and **SFU (Selective Forwarding Unit)** topologies to ensure efficient and reliable video streaming. The architecture included a Video Management Server (for managing streams), a Video Record Server (for recording and transferring videos post-conference), an Application Server, and browser-based clients.
- Integrated **WebRTC** for peer-to-peer media streaming and **WebSocket** for real-time signaling, ensuring seamless coordination between clients and servers.

SimBT Inc. Simulation Science and Technologies
Computer Engineering Intern

ODTÜ Teknokent, TUR
Jul. 2018 - Aug. 2018

- In SimBT, I was more interested in the design of a **Corporate Information System Application** that more concerns the Human Resources department of the Company.
- I have both taken part on Frontend and Backend side of the project by using .NET Web development platform on Microsoft Visual Studio.
- I have used **HTML-CSS-JavaScript** at the front end of the application while I used C# at the back end of the project and MySQL as a database.

Education

Middle East Technical University (METU)
Computer Engineering

Ankara, Turkey
2017

- CGPA 2.97/4.00

Turkish Military Academy
Computer Engineering

Ankara, Turkey
2013-2016

- CGPA 3.20/4.00

Kuleli Military High School
4 + 1 (English Preparation Class)

İstanbul, Turkey
2008-2013

- CGPA 70/100

Extracurricular Activities

2021-2022 **Table Tennis**, Emek Masa Tenisi Kulübü — *Ankara*

2013-2016 **Military Academy**, Judo, Turkish Judo Federation License — *Ankara*

2008-2013 **İstanbul High School Table Tennis Tournament**, Kuleli Table Tennis Team — *İstanbul*

2006-2008 **Ankara Inter-school Chess Tournament**, Primary School — *Ankara*

Skills

Programming Languages
TypeScript - JavaScript - C#

Frameworks and Others
Angular - Vue.js - Node.js - .NET - Entity Framework - Html - Css - Bootstrap - Angular Material - Tailwind Css - Git - Figma - Zeplin -

Operating System And Others
Windows, Linux, Putty Filezilla, RDP

Database
MySQL, MsSQL
